FIBCA Policy for Recycling Bulk Bags:

FIBCA strongly recommends that, whenever possible, bulk bags are recycled at the end of their life cycle.

Recycling companies throughout North America can establish an end-user specific, bulk bag recycling program. Please refer to the following pages for a list of bulk bag recycling companies.

As the primary source of bulk bag related information, FIBCA actively promotes bulk bag recycling and educates its members and bulk bag users about the benefits of recycling and how to establish a bulk bag recycling program.

Please contact a FIBCA member company to learn more about how to recycle bulk bags and to obtain assistance with establishing your own bulk bag recycling program. [Click here for a list of FIBCA members and links to their websites.](#)
